Expected result: Agent reaches Dashboard Home or activation if inactive.

Verify: Invalid login shows a clear error.

Pass: _____ Fail: _____ Bug ID / Notes: _____

04 Forgot Password

Forgot Password

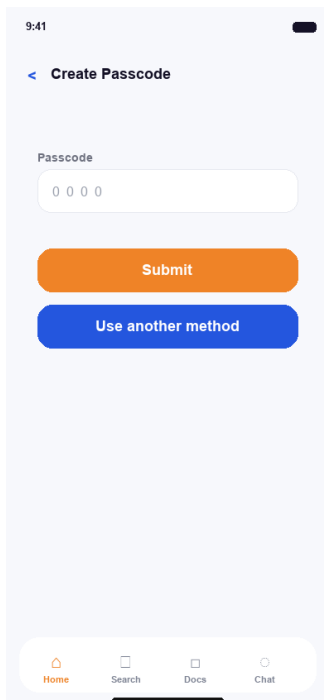

Tester action: Submit registered email.

Expected result: Reset instructions are sent or confirmation is displayed.

Verify: Email validation and confirmation.

Pass: _____ Fail: _____ Bug ID / Notes: _____

1. Authentication and Agent Access

05 Create Passcode

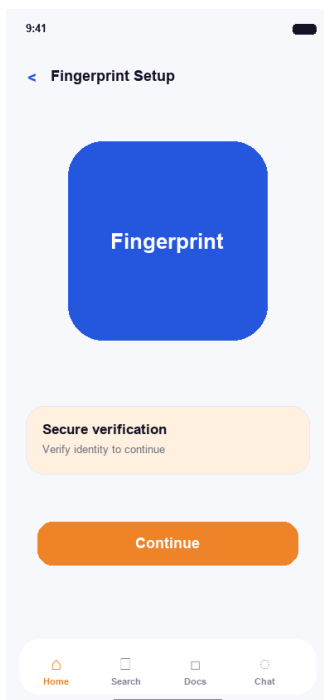

Create Passcode

Tester action: Create a four digit passcode.

Expected results: Passcode is saved for this device.

Verify: Length, confirmation, mismatch errors.

Pass: _____ Fail: _____ Bug ID / Notes: _____

06 Fingerprint Setup

Fingerprint Setup

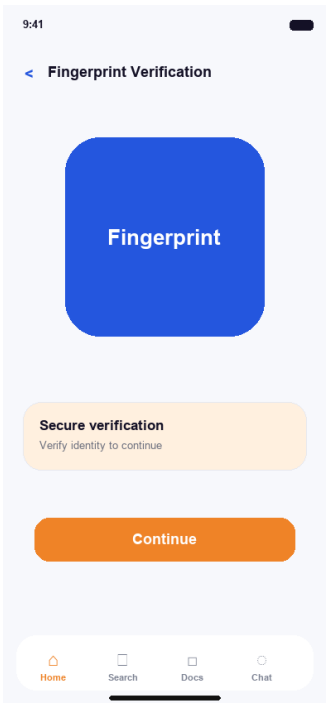

Tester action: Choose fingerprint setup.

Expected results: Device biometric prompt or fallback appears.

Verify: Unsupported devices can use passcode.

Pass: _____ Fail: _____ Bug ID / Notes: _____

1. Authentication and Agent Access

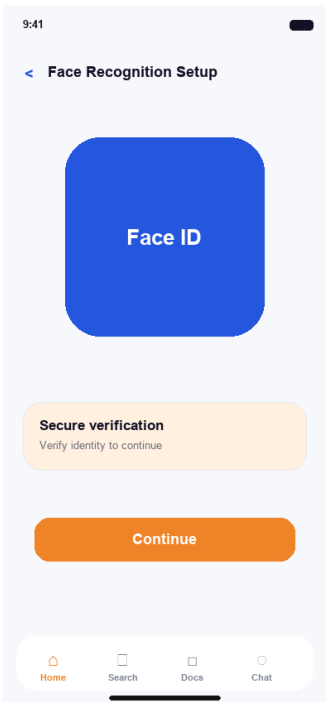

07 Fingerprint Verification

Fingerprint Verification

Tester action: Verify with fingerprint.
Expected result: Agent is authenticated and continues.
Verify: Failure/cancel returns safely.

Pass: _____ Fail: _____ Bug ID / Notes: _____

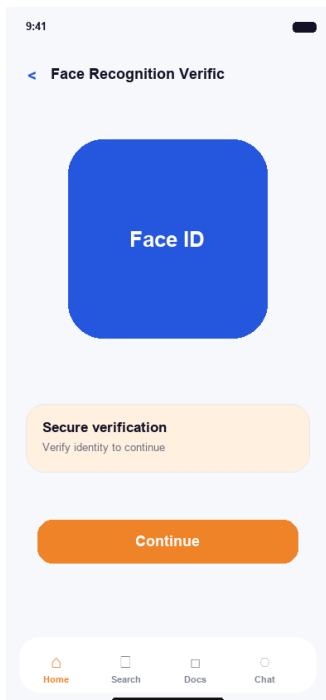

08 Face Recognition Setup

Face Recognition Setup

Tester action: Choose face recognition setup.
Expected result: Face setup prompt appears.
Verify: Permission handling and fallback passcode.

Pass: _____ Fail: _____ Bug ID / Notes: _____

1. Authentication and Agent Access

09 Face Recognition Verification

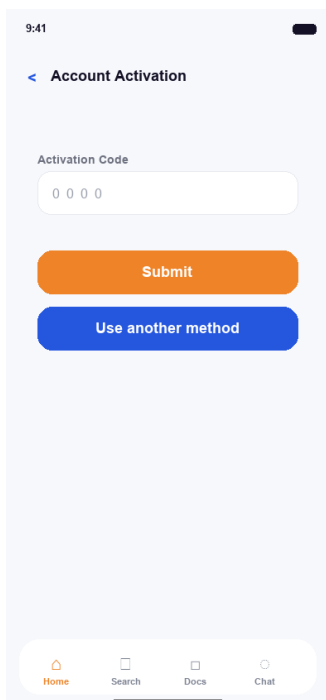

Face Recognition Verification

Tester action: Verify with face recognition.

Expected result: Agent is authenticated and continues.

Verify: Failure/cancel returns safely.

Pass: _____ Fail: _____ Bug ID / Notes: _____

10 Account Activation

Account Activation

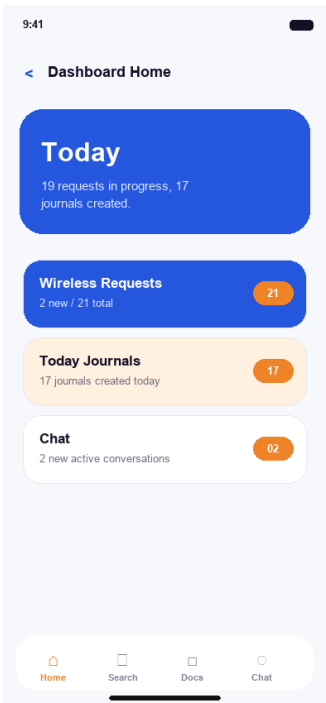

Tester action: Enter activation code and tap Activate.

Expected result: Account becomes active and dashboard opens.

Verify: Invalid/expired code and resend behavior.

Pass: _____ Fail: _____ Bug ID / Notes: _____

2. Dashboard, Search, Notifications, and Settings

11 Dashboard Home

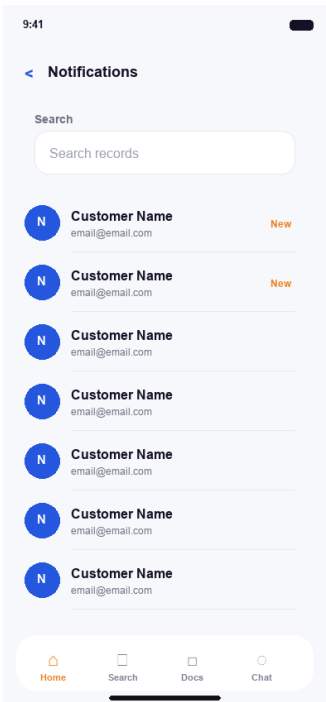

Dashboard Home

Tester action: Review counters and tap each card.

Expected results: Each card opens its workflow list.

Verify: Counts match backend and tap areas work.

Pass: _____ Fail: _____ Bug ID / Notes: _____

12 Notifications

Notifications

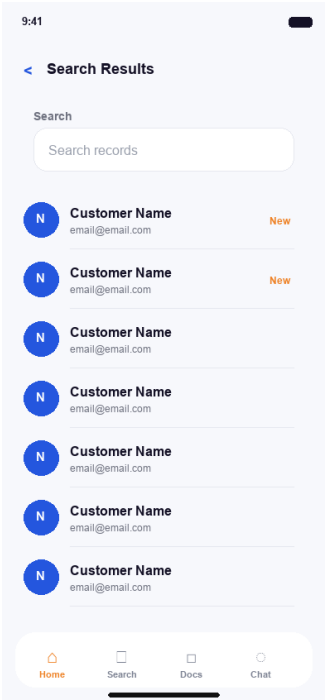

Tester action: Open notifications.

Expected results: Recent activity list appears.

Verify: Unread/read state, timestamps, deep links.

Pass: _____ Fail: _____ Bug ID / Notes: _____

2. Dashboard, Search, Notifications, and Settings

13 Search Results

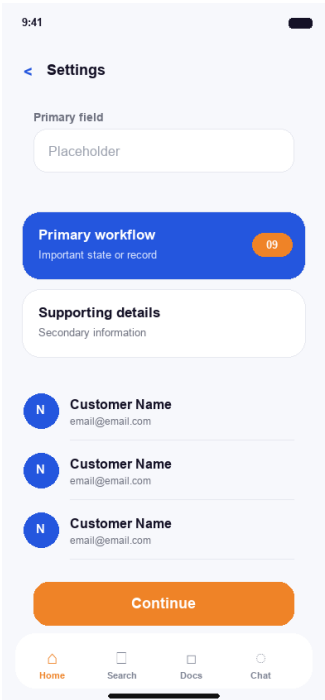

Search Results

Tester action: Search customer name, email, or request ID.

Expected result: Matching records appear.

Verify: Empty state and partial matches.

Pass: _____ Fail: _____ Bug ID / Notes: _____

14 Settings

Settings

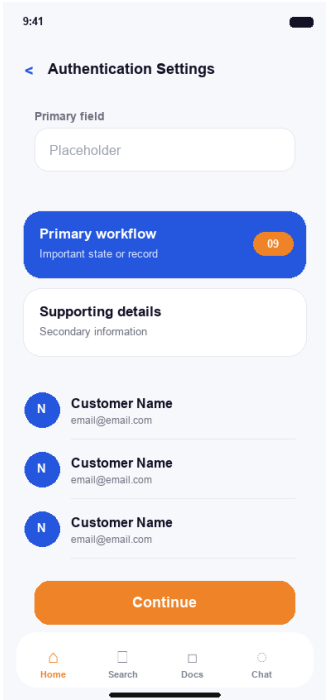

Tester action: Open settings.

Expected result: Account/profile/settings options are visible.

Verify: All rows navigate correctly.

Pass: _____ Fail: _____ Bug ID / Notes: _____

2. Dashboard, Search, Notifications, and Settings

15 Authentication Settings

Authentication Settings

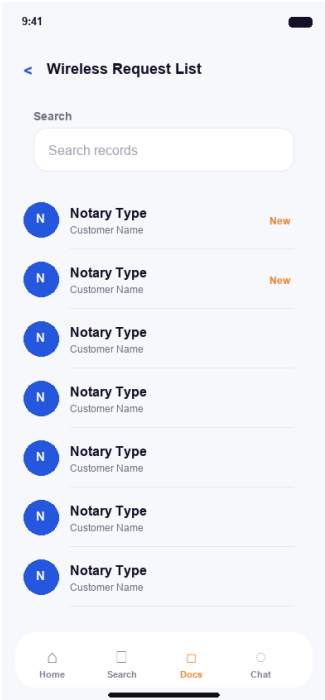

Tester action: Change biometric preference.

Expected result: Preference is saved.

Verify: Only available methods selectable.

Pass: _____ Fail: _____ Bug ID / Notes: _____

3. Wireless Request Workflow

16 Wireless Request List

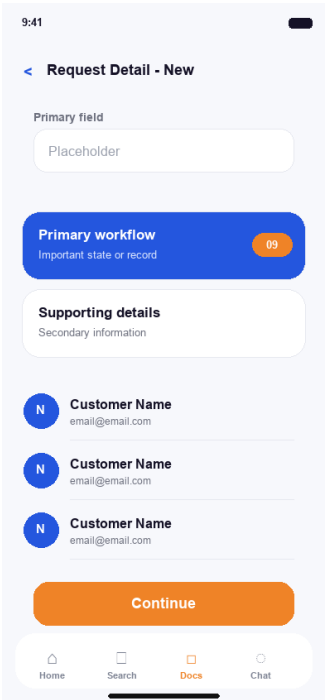

Wireless Request List

Tester action: Open Wireless Requests.

Expected result: In-process request list appears.

Verify: Tabs, counts, and loading states.

Pass: _____ Fail: _____ Bug ID / Notes: _____

17 Request Detail - New

Request Detail - New

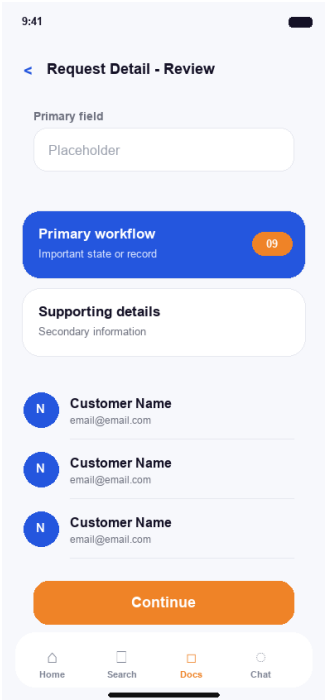

Tester action: Open a new request.

Expected result: Customer detail and required sections appear.

Verify: Call/email/chat and accept/decline controls.

Pass: _____ Fail: _____ Bug ID / Notes: _____

3. Wireless Request Workflow

18 Request Detail - Review

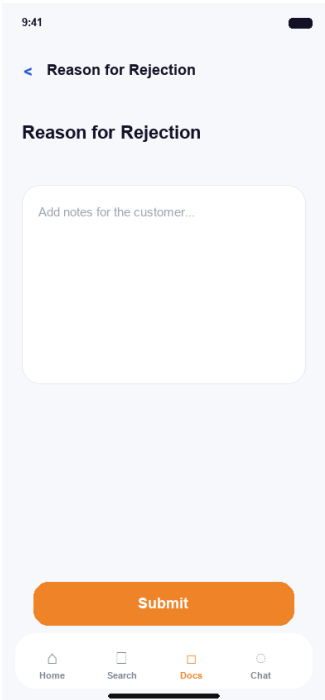

Request Detail - Review

Tester action: Accept one document and decline another.

Expected results: Statuses update.

Verify: Progress persists after reopening.

Pass: _____ Fail: _____ Bug ID / Notes: _____

19 Reason for Rejection

Reason for Rejection

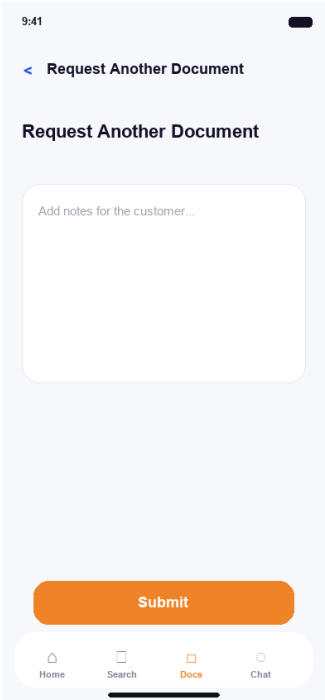

Tester action: Decline a document and enter reason.

Expected results: Reason is submitted to customer.

Verify: Reason required before submit.

Pass: _____ Fail: _____ Bug ID / Notes: _____

3. Wireless Request Workflow

20 Request Another Document

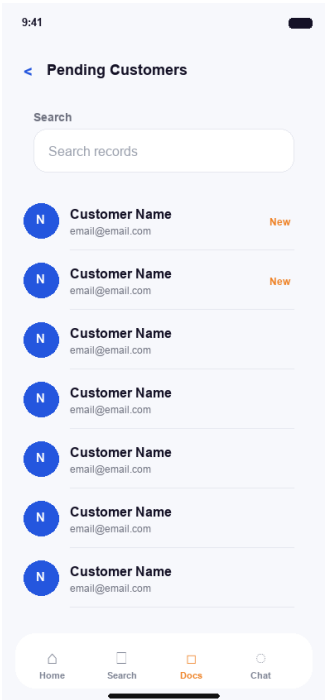

Request Another Document

Tester action: Enter missing document details.

Expected result: Customer receives document request.

Verify: Activity/history is updated.

Pass: _____ Fail: _____ Bug ID / Notes: _____

21 Pending Customers

Pending Customers

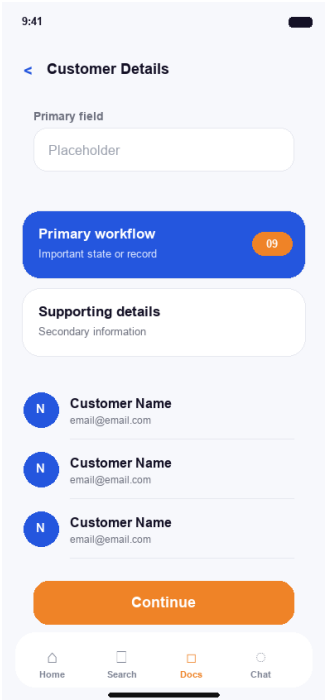

Tester action: Open pending customers.

Expected result: Pending verification customers appear.

Verify: Review actions and empty state.

Pass: _____ Fail: _____ Bug ID / Notes: _____

3. Wireless Request Workflow

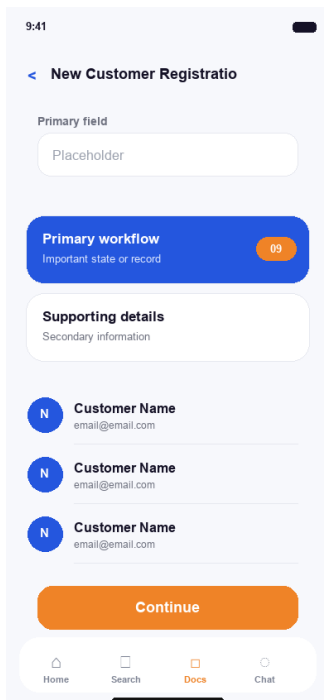

22 Customer Details

Customer Details

Tester action: Open customer details.
Expected result: Profile, docs, signature, and history show.
Verify: Create Journal opens journal flow.

Pass: _____ Fail: _____ Bug ID / Notes: _____

4. Customer Registration and Profile Edits

23 New Customer Registration

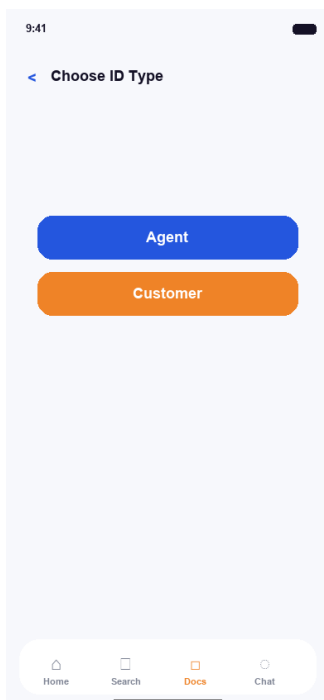

New Customer Registration

Tester action: Start new customer.

Expected result: Registration screen opens.

Verify: Manual fields and scan buttons work.

Pass: _____ Fail: _____ Bug ID / Notes: _____

24 Choose ID Type

Choose ID Type

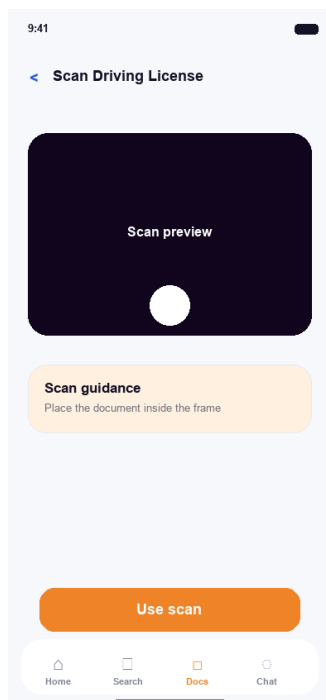

Tester action: Choose Driving License or Passport.

Expected result: Correct scan screen opens.

Verify: Back/cancel returns safely.

Pass: _____ Fail: _____ Bug ID / Notes: _____

4. Customer Registration and Profile Edits

25 Scan Driving License

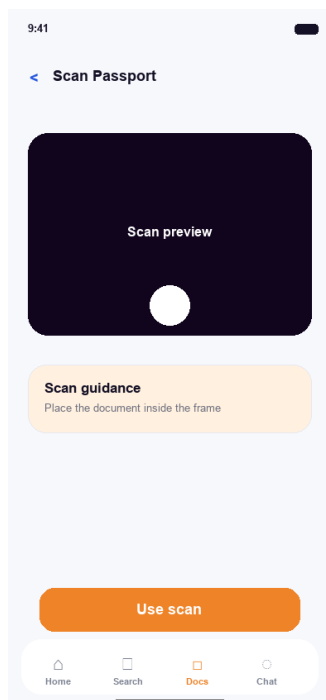

Scan Driving License

Tester action: Scan back side of license.

Expected result: License data is captured or retry shown.

Verify: Camera permissions and retry flow.

Pass: _____ Fail: _____ Bug ID / Notes: _____

26 Scan Passport

Scan Passport

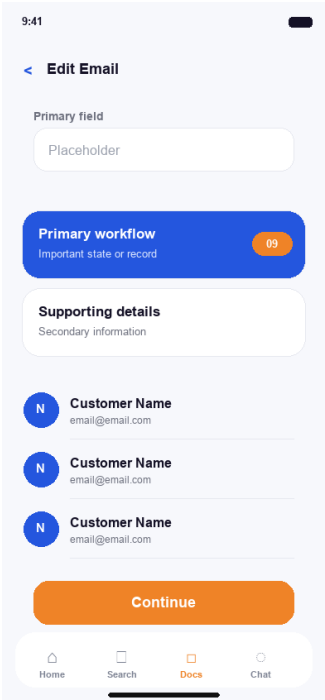

Tester action: Scan passport ID page.

Expected result: Passport data is captured or retry shown.

Verify: Matching/fraud handling.

Pass: _____ Fail: _____ Bug ID / Notes: _____

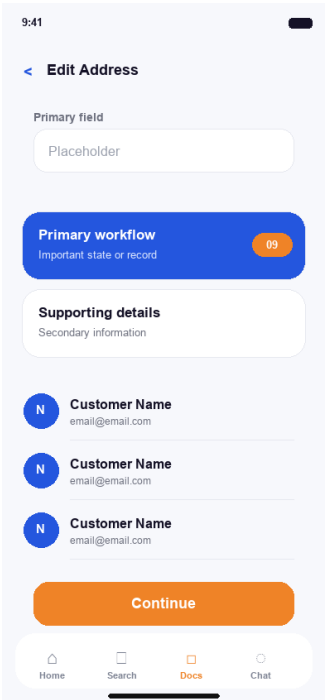

4. Customer Registration and Profile Edits

27 Edit Email

Tester action: Update customer email.
Expected result: Email change is saved or verification starts.
Verify: Invalid/duplicate email errors.

Pass: _____ Fail: _____ Bug ID / Notes: _____

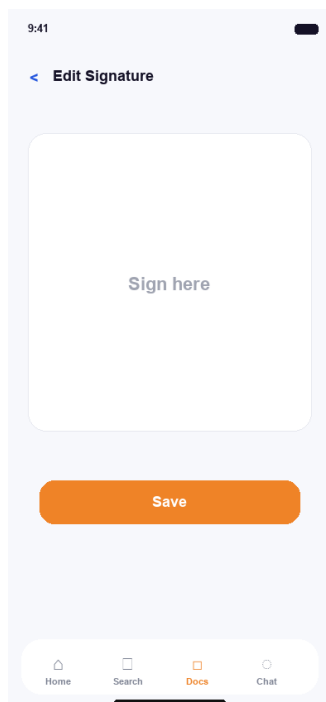

28 Edit Address

Tester action: Update customer address.
Expected result: Address change is saved.
Verify: Required fields and formatting.

Pass: _____ Fail: _____ Bug ID / Notes: _____

4. Customer Registration and Profile Edits

29 Edit Signature

Edit Signature

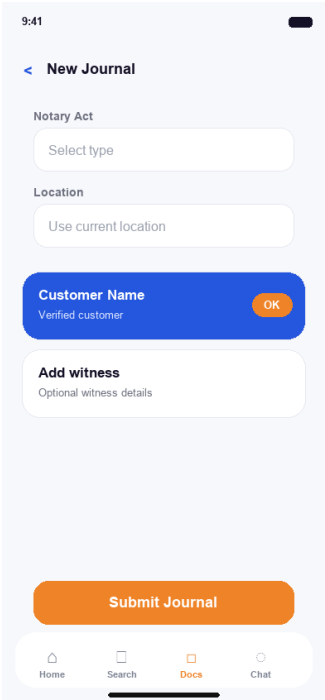

Tester action: Capture/edit customer signature.

Expected result: Signature is saved and shown.

Verify: Clear/save/cancel behavior.

Pass: _____ Fail: _____ Bug ID / Notes: _____

5. Journal, Signing, and Document Capture

30 New Journal

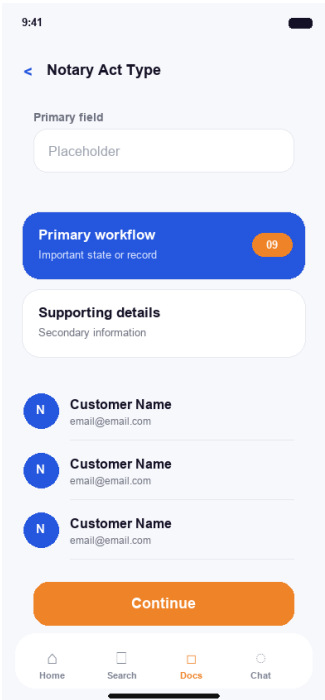

New Journal

Tester action: Create journal for verified customer.

Expected result: New journal fields appear.

Verify: Act, location, witness, notes, submit.

Pass: _____ Fail: _____ Bug ID / Notes: _____

31 Notary Act Type

Notary Act Type

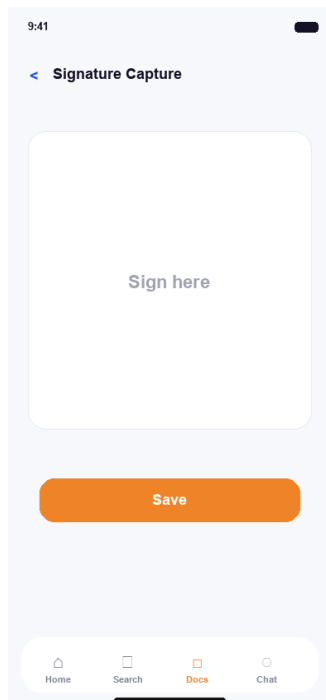

Tester action: Select notary act type.

Expected result: Selected act returns to New Journal.

Verify: Long list scrolling/search if available.

Pass: _____ Fail: _____ Bug ID / Notes: _____

5. Journal, Signing, and Document Capture

32 Signature Capture

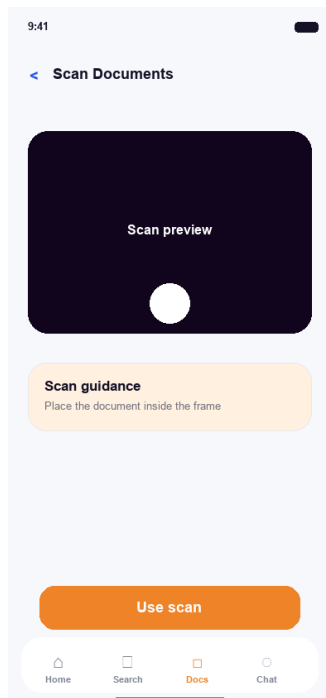

Signature Capture

Tester action: Ask customer to sign.

Expected results: Signature image is captured.

Verify: Clear, done, empty signature validation.

Pass: _____ Fail: _____ Bug ID / Notes: _____

33 Scan Documents

Scan Documents

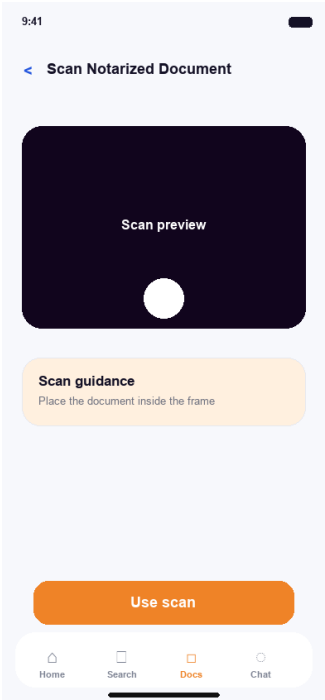

Tester action: Scan required document.

Expected results: Document image can be accepted/rejected.

Verify: Reject/rescan and accept path.

Pass: _____ Fail: _____ Bug ID / Notes: _____

5. Journal, Signing, and Document Capture

34 Scan Notarized Document

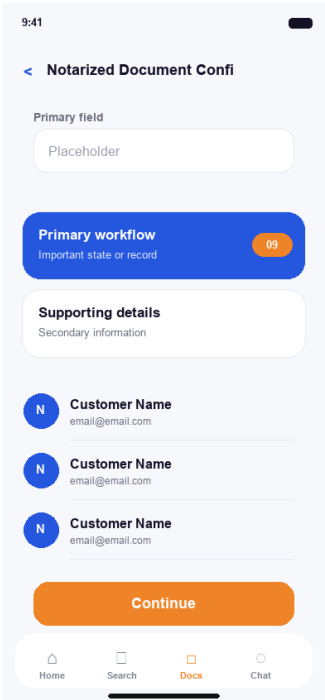

Scan Notarized Document

Tester action: Scan final notarized document.

Expected result: Final scan preview is captured.

Verify: Multiple pages and permissions.

Pass: _____ Fail: _____ Bug ID / Notes: _____

35 Notarized Document Confirmation

Notarized Document Confirmation

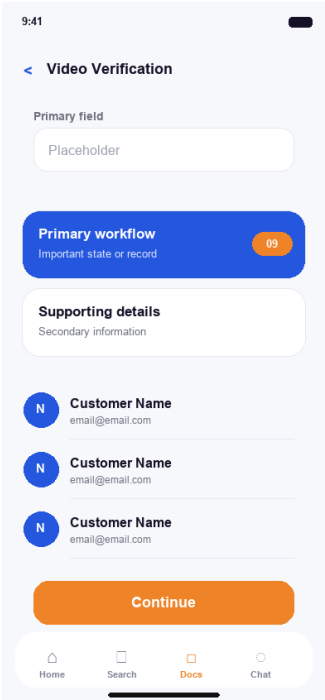

Tester action: Confirm scanning is done.

Expected result: Document URL is sent to customer.

Verify: No returns to scan; Yes completes.

Pass: _____ Fail: _____ Bug ID / Notes: _____

6. Video, Billing, Mail, Chat, and Reports

36 Video Verification

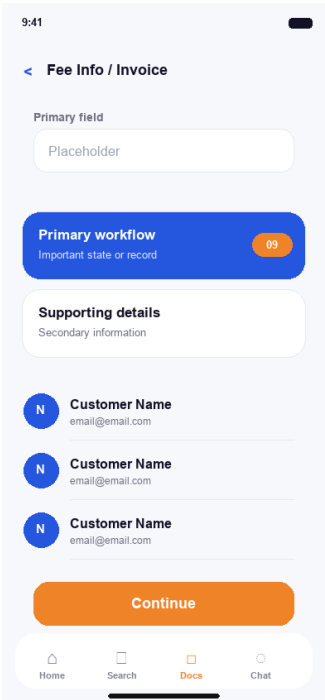

Video Verification

Tester action: Start video call.

Expected result: Video call starts or waiting state appears.

Verify: Permissions, reminder, call failure.

Pass: _____ Fail: _____ Bug ID / Notes: _____

37 Fee Info / Invoice

Fee Info / Invoice

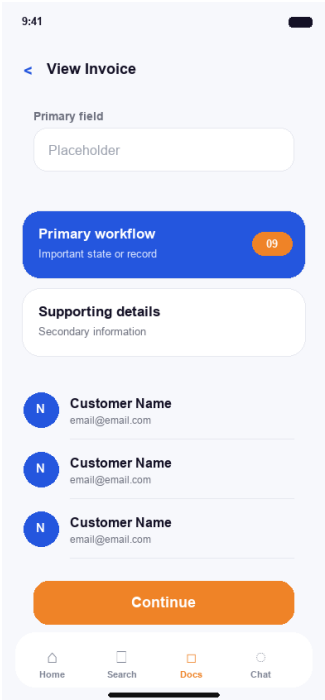

Tester action: Enter fees and generate invoice.

Expected result: Invoice is created and customer notified.

Verify: Total calculation and required fee validation.

Pass: _____ Fail: _____ Bug ID / Notes: _____

6. Video, Billing, Mail, Chat, and Reports

38 View Invoice

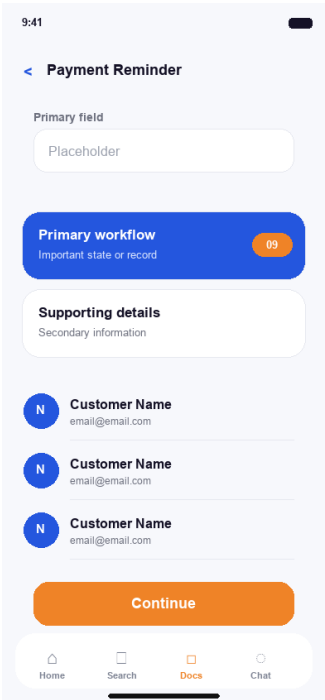

View Invoice

Tester action: Open invoice.

Expected result: Invoice details are visible.

Verify: Line items, total, customer info.

Pass: _____ Fail: _____ Bug ID / Notes: _____

39 Payment Reminder

Payment Reminder

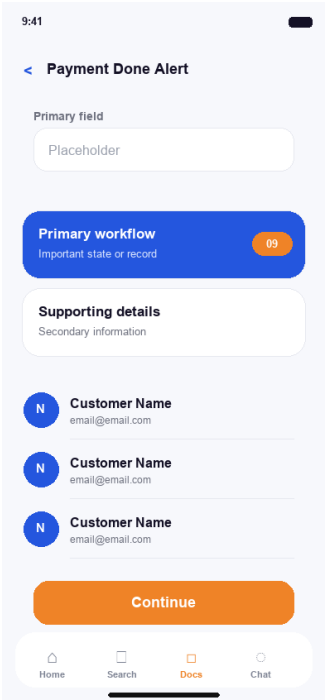

Tester action: Send payment reminder.

Expected result: Reminder is sent.

Verify: Duplicate reminder messaging.

Pass: _____ Fail: _____ Bug ID / Notes: _____

6. Video, Billing, Mail, Chat, and Reports

40 Payment Done Alert

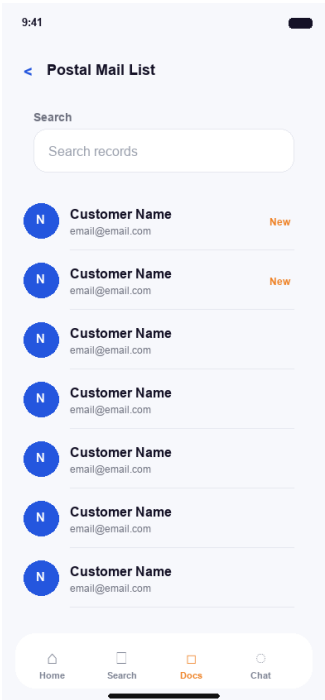

Payment Done Alert

Tester action: Acknowledge payment done alert.

Expected results: Payment status updates.

Verify: Acknowledgement/customer correctness.

Pass: _____ Fail: _____ Bug ID / Notes: _____

41 Postal Mail List

Postal Mail List

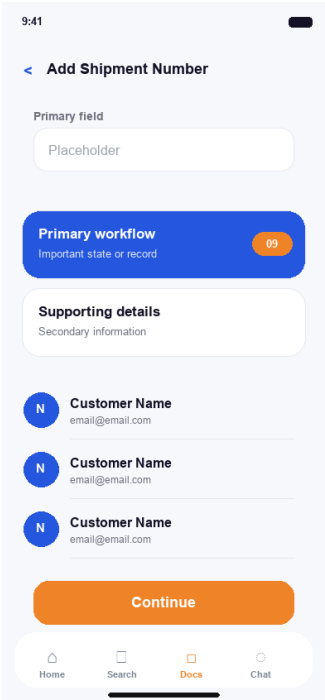

Tester action: Open postal mail queue.

Expected results: Customers needing shipment number appear.

Verify: Ready/done status and filters.

Pass: _____ Fail: _____ Bug ID / Notes: _____

6. Video, Billing, Mail, Chat, and Reports

42 Add Shipment Number

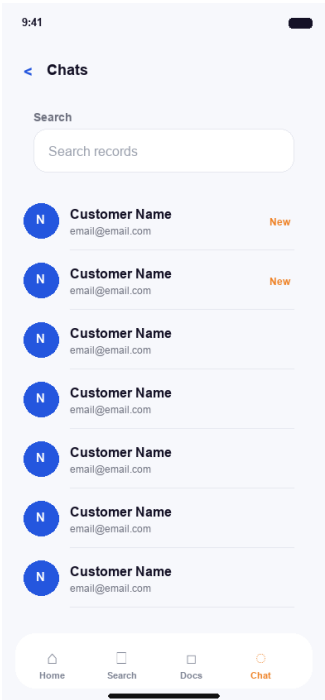

Add Shipment Number

Tester action: Enter tracking number.

Expected results: Shipment number is saved.

Verify: Required field and invalid tracking.

Pass: _____ Fail: _____ Bug ID / Notes: _____

43 Chats

Chats

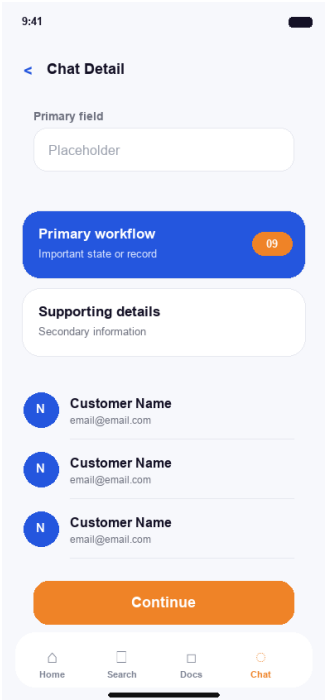

Tester action: Open chat list.

Expected results: Customer conversations appear.

Verify: Unread count, search, open conversation.

Pass: _____ Fail: _____ Bug ID / Notes: _____

6. Video, Billing, Mail, Chat, and Reports

44 Chat Detail

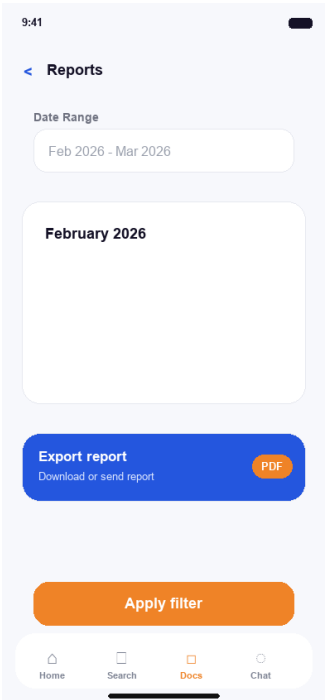

Chat Detail

Tester action: Send and receive message.

Expected result: Conversation updates.

Verify: Attachment/comment support if implemented.

Pass: _____ Fail: _____ Bug ID / Notes: _____

45 Reports

Reports

Tester action: Filter date range and export.

Expected result: Filtered report appears/export starts.

Verify: Date picker, empty state, export success.

Pass: _____ Fail: _____ Bug ID / Notes: _____
